Dear Kivalliq Labour Market Stakeholders and Kivallirmiut;

**RE: Terms of Reference Document from Kivalliq Labour Needs Foundational Assessment**

Greetings and a very good day to all Labour Market Stakeholders and Kivallirmiut! This is Kevin Sanguin, Training and Employment Coordinator for Sakku Investments Corporation.

As we promised all stakeholders, business owners, and department leaders, we are posting the Terms of Reference for the Kivalliq Labour Market Needs Foundational Assessment on our Sakku Investments website. We appreciated the time that so many people took to meet with our team and share thoughtful comments and insights about labour market issues impacting their communities.

Our next step will be to carefully analyze all the information that people so generously shared with us and advance to the next Phase 2 of the project to prepare a Comprehensive Labour Market Assessment. The 3<sup>rd</sup> and final phase in this process will be to compile all the information gathered in the first 2 phases of the project as a reference document for employers/training organizations and other stakeholders to prepare a Region Wide Training Action Plan. If you have any comments that you would like considered in the next phase of this project then please be welcome to email me at [ksanguin@sakku.ca](mailto:ksanguin@sakku.ca)

Before closing this letter, we would like to acknowledge and thank our sister organization: Kivalliq Inuit Programs and Services and Director, Jason Tologanak, for the generous provision of funding for this important project. We also want to thank the Nunavut Housing Corporation for providing clarification on their rent scale which is included as an Appendix to the report. Lastly, we would like to extend our thanks and appreciation to Mr. Scott Black and his team at Nvision Insight Group for their consulting support and expertise with this project.

Thanks again and best to all,

Kevin
